Here's the wording:

DON'T BE MISLED

NCTC's two Denton County Campuses were built and are being paid for NOT with any local taxes but with revenue from student tuition—most of which comes from student living in Denton County.

Total NCTC semester-hour tuition revenue last year was \$12,179,143, \$9,395,480 of which is paid by out-of-district students.

Improvements to the Gainesville Campus will bring more out-of-district students here to contribute even more to the local economy and make more educational opportunities available to local students.
